PROFILE

I am a passionate technology enthusiast who thrives on utilizing my expertise to solve problems in different business sectors, whether as part of a team or with less supervision. I am dedicated to putting in the effort required to overcome any obstacles that may arise.

CERTIFICATE

Full Stack Engineer | Frontend Engineer
ALX SE
06/2022 – 09/2023 | Africa

SKILLS

- ReactJS & Redux
- HTML
- CSS & Tailwind CSS
- Responsive design
- JavaScript ES6
- Git
- SQL

PROJECTS

Movie App
09/2023 – present
A dynamic movie application designed to enhance the user's movie-watching experience.

- Watch Trailer: Users can seamlessly view movie trailers, enhancing their ability to make informed choices before watching a film.
- Movie Cards: Interactive movie cards provide users with detailed information about films, offering a user-friendly interface for browsing and selecting movies.
- API Integration: The app leverages external APIs to showcase a curated selection of featured movies, ensuring a diverse and engaging viewing experience.
- Routing: Implemented React Router for smooth navigation and a cohesive user journey within the application.

Weather App
Technologies: HTML, CSS and JavaScript
07/2024 – 07/2024
No matter where you are in the world, my Weather Web App will keep you in the loop with real-time weather updates and forecasts. From sunny days to rain showers and everything in between, you'll always stay informed and prepared! ⛅☔

School Website
A website that complements the school web app I previously built. It handles promoting the school and its facilities and provides contact information

- Very responsive website, regardless of the view the user can get clear details about the school on mobile, tablets and PC.

PROFESSIONAL EXPERIENCE

LingoSultan Enterprise
Junior Frontend Developer
03/2024 – present | Benin, Nigeria | Remote

- Assisted in developing and maintaining frontend features using **HTML, CSS, JavaScript, and React**.
- Collaborated with the senior developer on web projects, focusing on clean UI design and responsive layouts.
- Contributed to the development of responsive web applications using **React.js**, **Tailwind CSS**, and **Vite**, with a focus on performance, user experience, and maintainability.
- Handled tasks like fixing bugs, improving performance, and adding new components.
- Gained hands-on experience with version control systems like **Git** and learned best practices in code documentation.

- Participated in weekly sprint meetings, learning how to manage tasks using tools like **Trello** and GitHub issues, and improved time management and communication skills in a remote work setting.

Product Square
Frontend Developer Intern
Remote

As a Frontend Developer Intern at Product Square, I play a crucial role in creating user-friendly and visually appealing interfaces for our digital products. My responsibilities include:
• Collaborating with the design team to translate mockups and wireframes into interactive and responsive web pages using HTML, CSS, and JavaScript.
• Conducting thorough testing and debugging to ensure the smooth performance of web applications across different browsers and devices.
• Working closely with backend developers to integrate frontend components with backend systems, APIs, and databases.
• Continuously learning and adapting to new technologies, frameworks, and best practices in frontend development to contribute innovative ideas and solutions to our projects.
